Dear Sir/Madam,

I hope this letter finds you well.

As a game designer I am fervently passionate about video games and am always on the lookout for new adventures and new challenges to face with my work. I am writing to you with much enthusiasm as I seek one of these new opportunities.

I am a junior game designer with experience in coding, design, level design, motion design, writing and narrative design and sound design, with deep knowledge of the Unity game engine. I have worked on both mobile and PC titles in the past during my academic career and know the software very well. I am also knowledgeable in 3D Art using Blender, UI/UX design and general coding with C#.

My academic career at IPB (Instituto Politécnico de Bragança), along with my small time at XAMK in Finland, have ended, but I am awaiting new opportunities to arrive now that I enter the job market.

Thank you for your time.

Sincerely,

**Alina Beleza**
